**Summary of issues or questions that were submitted from respondents or other interest parties related to the RFI:**

What reimbursement methodology will be used (fee-for-service, case rate, capitation, other) and what are the reimbursement rates?

If it is a fee-for-service model, will the local authority take an administrative fee for processing claims?

How will claim and encounter data be submitted (paper v. electronic) and to which agencies will they be submitted (LA, Medicare, Medicaid)?

Describe how the referral process will work.

Will there be established limits on the number of persons who can be served?

Will there be established waiting lists for services and if so, who will maintain those lists?

Will the provider be required to seek authorization for care (initial and ongoing) from the LA?

Describe the clinical data points that must be submitted to the LA and the submission frequency.

Describe any QM/CQI measures/indicators that are required for submission.

Is detail available of the funding that is available for each service that is put out for bid, as well as any fiscal constraints that are not subject to pre-contract negotiations?

Please provide discussion of any opportunities for funded providers to participate in the eligibility process, such as funding source eligibility, insurance, appropriate level of care and screening for admission to state facilities/hospitals.

What is the potential provider's experience in contracting?

What is the potential provider's tenure in service provision?

An analysis of the system of care including strengths and weaknesses, gaps and deficits, and major challenges within the system.

A discussion of the relationship of the requested services with the remaining components of the system of care and other major constituencies.

Delineation of the responsibility of all entities participating in the project.

Discussion of values, needs and desires, as well as strategic direction of the Authority as it relates to the RFP.

What is the issue or challenge for the system that the RFP is intended to address or fix?

What are the anticipated outcomes, what is the Authority's vision for services?

What is the role of the consumers?

What is the amount of innovation, science-based creativity sought related to the RFP?
